# Chapter 1. Some example citations

This is a citation (Eccles and Moriarity, 2003). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

This is a multiple citation (Eccles and Moriarity, 2003; Cerwinka et al. , 2002; Mizusawa et al. , 2002). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

This is a book (Miller and Myers, 1999) and this is a book chapter (Walsh, 1999). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

Eccles and Moriarity reported recently (2003), that textual citations also work. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

This is another multiple citation (Eccles and Moriarity, 2003; Cerwinka et al. , 2002; Mizusawa et al. , 2002). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

This is yet another multiple citation (Eccles and Moriarity, 2003; Cerwinka et al. , 2002; Mizusawa et al. , 2002). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

Here we cite a newspaper article (Anonymous). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

Here we cite an electronic source (Walsh and Muellner, 2002). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

Here we cite a case (Anonymous, 1968). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

Conference proceedings are supposed to work as well (Jackquet et al. , 2003). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

Here we cite a motion picture (Diegues, 1979). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

This citation tries to pull in a reference from a different database (Adamus and Field, 2001).
