# Chapter 1. Some example citations

This is a citation (1). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

This is a multiple citation (1-3). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

This is a book (4) and this is a book chapter (5). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

Eccles and Moriarity reported recently (1), that textual citations also work. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

This is another multiple citation (1-3). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

This is yet another multiple citation (1-3). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

Here we cite a newspaper article (6). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

Here we cite an electronic source (7). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

Here we cite a case (8). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

Conference proceedings are supposed to work as well (9). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

Here we cite a motion picture (10). The additional text is required to make the printed output look nicer. The additional text is required to make the printed output look nicer.

This citation tries to pull in a reference from a different database (11).
